

Mirage Heights

Light Bulb Replacement

In order to comply with the Fountain Hills Dark Skies ordinances for lighting, as well as provide continuity to the neighborhood, Mirage Heights has purchased low wattage LED bulbs for the community.

This will save the community \$2,400 annually by providing this in-house.

If you require a new bulb, please contact Trestle Management, so that we can have a Board Member provide one to you.

Please only use the LED bulbs provided by the HOA to comply with the ordinances and provide continuity.

Thank you!
